National Police and Fire Chaplain Academy

Welcome

The National Police and Fire Chaplain Academy is a standard for excellence in training and a leader in curriculum and professionalism. Our staff has all been involved in serving, creating, implementing, and leading chaplain programs. Our Instructors are polished and experienced in the areas of their expertise. We are pleased that you have chosen to join us, and we hope your experience with us is rich and rewarding.

This three-day class will be taught by Dr. Daniel W. Clark, Ph.D., who is a licensed clinical psychologist. He recently retired from the WSP, where he provided clinical services to Washington State Patrol employees and their family members. He was an integral part of supporting the Washington State Chaplain program. It is a pleasure for the Washington State Chaplain Foundation to host Dr. Clark.
